I was disappointed in the lack of muscle tone which led to erratic movement, also the amount of bad mouths. Both of these can be corrected by excise and breeding.

PD (1) Ward`s Cornadore Argyle Within Copperwhite NAF,TAF 10mth, lovely outline with straight front neat feet, clean in neck, well boned, plenty of depth, liked his rear quarters, pleasing in head with good eye, correct bite, pigmentation needs to come as he matures, when settled moved well on a loose lead, BPIB RBD.

JD (1) repeat from PD

PGD (3:1) 1st McDonald & McDonalds, Roanjora Castelao JW ShCm 2 appealing boys, preferred head on 1 good skull and fore hand, correct body proportions, shoulders well laid, level top line and tail well set, moved true and steady well handled.

2nd Birch & West Corranroo Camero at Hitides, he has a head with a soft expression, pigmentation could be better, clean front, good overall body proportions, well angulated on rear quarters, just wish he moved with more enthusiasm.
