CRITIQUE

I would like to say a big thank you to all of the exhibits I had a very enjoyable day judging the breed. It is some time since I last judged them and there were couple of things I noticed had changed considerably and not always for the good of the breed in my opinion.

Heads have changed considerably we seem to have lost the breadth of head and strength in muzzle which was very characteristic of the breed, overall movement I found to be lacking in reach and drive, there also seems to be a lack of the strong oval bone which I felt had changed the overall conformation of the dogs making them look much finer. I was very encouraged by my BD, BB, BP and my BOB which I have to say is the most typical Red and White Setter of today. Pleased to see she was short listed in the group.

Puppy Dog 2

1. Killary's Grand Venture with Vanders - Mr JA Barney & Mrs J Howatson

Very nicely balanced dog, kind head & expression, excellent shoulder and upper arm angulation, straight front and lovely tight feet. Good rear angulation moved with drive and purpose.

2. Laoirebay Midnight Drifter - Mr M I & Mrs W E Taylor

Stronger head than 1 rangier dog still bit raw at 10 mths I suspect that will change as he grows on, slightly longer in body, good depth chest, not quite the upper arm angulation and needed bit more rear angulation. Good depth of chest tight feet, wanted to run away a bit with his handler so didn't show his movement to advantage.

JUNIOR DOG 3

1. Caispern Roddy Owen at Oldestone - Mr & Mrs DS Wade

Loved this boy, filled my eye the minute he came into the ring real typey dog. Beautiful head and expression, kind dark eye, good reach of neck and well laid back shoulders and upper arm angulation. Good strong oval bone and nice tight feet. Correct depth of chest and spring of rib short coupled and just right rear angulation. Moved with drive and purpose DCC & RBB

2. Casafelice Plezzana - Mr I & Mrs G Lamb

Slightly stronger in head than 1 good front angulation and shoulder lay, not quite the depth of chest of 1, correct oval bone straight front short coupled, excellent hind muscle moved with drive.

3. Rustasha Golden Rapper

POST GRADUATE DOG 8(1a)

Rangier type to 1 and not the strength of head to my first dog, taller in leg and still needs time to grow into herself. Good hind action and moved with drive.
